NEW E·A·Rsoft™ Blasts™ Earplugs

More Fun. More Wearers.

Give workers a fun choice and they'll take it. Here's proof: In a study 19 out of 20 individuals chose these colorful new plugs over plain ones. When was the last time your workers were excited about hearing protection?

Most Protection In The Industry.

Just because they're fun doesn't mean they're not serious protectors. The fact is, EARsoft Blasts provide the highest attenuation of any earplug in the industry—NRR 33dB. No other earplug provides more.

Comfort = Compliance.

Better yet, the soft, smooth, tapered shape makes E·A·Rsoft Blasts the most comfortable earplug ever produced. So they not only look great and work great, they feel great, too. The perfect answer for compliance problems.

**E·A·Rsoft™ Blasts™ Earplugs—
another leading advancement
in hearing protection.**
