

INTERNATIONAL OCCUPATIONAL HYGIENE CERTIFICATION W505

CONTROL OF HAZARDOUS SUBSTANCES

APRIL 2024
17th, 18th, 19th, 24th, 25th & 26th

COURSE AIM:

To describe the ways in which **exposure to hazardous substances** arises in the workplace, and to introduce the methodologies and technologies available to control exposures and thereby **reduce risks to health**.

WHO IS THIS COURSE FOR:

Working technicians and technologists in occupational hygiene, health and safety personnel including incident commanders and management, and operations and maintenance personnel involved in manufacturing and/or processing, all who require the technical knowledge and hands-on practical training on principles in occupational hygiene, for applications in controlling exposures to hazardous substances in the workplace.

Virtual Course - 40 hours
Open to the region

With BOHS Exam:
TT \$9,340 / US \$1,374
Without BOHS Exam:
TT \$7,504 / US \$1,104

**Cost is VAT Exclusive*

*Upon passing the course examination, an accredited certificate of award of successful course completion from British Occupational Hygiene Society (BOHS) will be given.
